

ADDENDUM TO THE ACS PASA GUIDELINES FOR APPLICANTS (JULY 2010)

Relevance to the nominated occupation: criteria for assessment

Group A

For Group A assessments, for an ICT major in a degree to be considered to be in a relevant field to an applicant's nominated occupation, at least 65% of the minimum requirement for the major must be in the same ICT disciplinary area as that occupation.

Work experience: employment episodes will only be assessed where at least 65% of the duties performed were closely related to the nominated occupation. Applicants must supply sufficient evidence of the employment they have completed, which is related to their nominated occupation.

Group B

For Group B assessments, for an ICT minor in a degree to be considered to be in a relevant field to an applicant's nominated occupation at least 65% of the minimum requirement for the minor must be in the same ICT disciplinary area as that occupation. In the case of a diploma, the relevance would require 65% of the minimum requirement for the ICT major.

Work experience: employment episodes will only be assessed where at least 65% of the duties performed were closely related to the nominated occupation. Applicants must supply sufficient evidence of the employment they have completed, which is related to their nominated occupation.

Group C

For Group C assessments, applicants will need to nominate an occupation in which they intend to seek employment. For an ICT major in a degree to be considered to be in a relevant field to an applicant's nominated occupation at least 65% of the minimum requirement for the major must be in the same ICT disciplinary area as that occupation.
