

INFORMATION TECHNOLOGY CADETS (UNDERGRADUATE PLACEMENT)

- Paid work experience to complement university studies
- Excellent career opportunity
- Business Analyst & IT focus

BAE Systems Australia is committed to being a leading through-life capability partner to the Australian Defence Force, optimising Australia's defence across joint, maritime, land and air environments. Across air, land and sea, BAE Systems' team of more than 6,500 talented employees have Australia's defence needs covered. What's more, BAE Systems is a great place to work.

BAE Systems delivers real capability and real advantage. Now that's something to be proud of.

We are pleased to invite applications from university students interested in joining BAE Systems Australia's dynamic Information Systems head office team in Edinburgh Parks, South Australia. We have two opportunities within Information Lifecycle Management (ILM) Development and Enterprise Resource Planning (ERP). Cadets will assist with the development, maintenance and user support of company business systems. More specifically, the Cadets will:

- Assist in the analysis, design, development and support of business systems
- Provide timely and customer focused user support for allocated system(s) including system errors, system enhancements, system upgrades/patches, customer queries, as required

Applicants will need to be entering their third or fourth year of a recognised information technology degree at a South Australian university in 2009 and will need excellent communication skills, high levels of self motivation and a strong team orientation. We also seek some understanding in at least one of the following areas:

- Collaboration Systems (Sharepoint, Wiki etc)
- E-Commerce/E-Business
- Workflow and Process Modelling
- Enterprise Architecture Design
- Product Data Management / Configuration Management

Applicants require experience with programming/development in one or more of the following:

- Microsoft .NET (VB or C#)
- SharePoint/Windows SharePoint Services
- SQL
- J2EE
- Oracle HTML DB (Application Express)

The successful applicants will enjoy paid and practical work experience to complement their final year(s) studies. It is envisaged that cadets will be offered 1-2 days of work per week in addition to being offered vacation work (if available).

Applications should be addressed to James Davis, HR Advisor – Recruitment.

Please ensure you attach a current resume and copy of your academic transcripts to date to your application.
