How the ACS can empower you

THINK AHEAD. CREATE THE FUTURE. CHANGE THE WORLD.

Your know-how and capability places you at a distinct advantage to your younger peers. With ACS you can apply your skills and uncover the final piece you need to achieve your dreams or share your wisdom with mentoring and speaking opportunities. Whatever your ambition, think ahead, be different. Join ACS. You'll be glad you did!

Industry programs, policy, advocacy and research

Be heard, make a contribution and hear from others. Participate in a variety of programs such as member only workshops, policy and advocacy research for the profession and sector. Receive these ground breaking reports, policy positions, advocacy pieces and the latest news with ACS' digital publication for members *InformationAge*.

Professional development and networking sessions

You know the necessity of staying connected and keeping your network strong. With ACS you can maintain and grow your network of peers and industry leaders, find rising stars and emerging talent and establish broader relationships across the ICT community. ACS understands time is always the critical factor and there are always opportunities to make a difference for the profession.

Set professional benchmarks

Realise your professional ambitions in the global economy. ACS certification is technology agnostic, vendor agnostic and focuses on transferable skills of relevance to your employer and customers. With a formal assessment by ACS your skills and knowledge are evaluated against an independent and internationally recognised benchmark. Get certified with ACS and you can confidently demonstrate a lifetime of achievement.

Be heard, impart your knowledge, make a contribution

In any sector talented professionals are always looking to gain insights from industry-leading experts. There are numerous ways to be involved with shaping the future of the Australian technology sector whether that be through participating in ACS Mentoring programs, thought leadership opportunities or policy, advocacy and research initiatives.

Industry and business thought leadership

Hear from our leaders of industry, network with your peers and share your experiences with students and emerging technology professionals. Access these presentations, anytime – anywhere through ACS' ICT Leaders Series which features speakers from Australia and around the globe. Share your knowledge, prepare the next generation for the future and help them change the world.
