

**Empowering Australian Innovation**

THINK AHEAD. CREATE THE FUTURE. CHANGE THE WORLD.

## **Empowering you to go further**

Everyone dreams of doing something amazing. Building a robot. Saving the planet. We think Australia's young people can help make a better world. All they need is a little encouragement, education and the right skills.

Whatever your ambition, think ahead, be different.  
The ACS can help you create the future.

# How the ACS can empower you

## THINK AHEAD. CREATE THE FUTURE. CHANGE THE WORLD.

Tomorrow's world will present profound opportunities amidst incredible change. Future graduates will shape our future and change our world by applying technology in new ways. By building a foundation in STEM skills you can exploit new technologies to realise your dreams. As the Professional Association for Australia's ICT sector we're here to help. Join ACS today and create your future.

### Get the job you want

Choose from 50 online courses designed specifically for students to develop the soft skills that are in demand with employers today.

### 33,000+ digital learning videos

Improvement. Anytime. Anywhere. Take advantage of eLearning opportunities with ACS and gain the digital skills of the future and fill out any skills gaps in your resume.

### Learn from the best

With ACS you can gain invaluable insights from industry-leading experts through ACS Mentoring Programs, by being involved in our Communities of Practice such as Young IT or by joining our technical groups across Australia. Learn what it takes to kick-start your career when you graduate and get ahead of your peers!

### It's not just who you know, it's who knows you!

With over 500 networking sessions annually, you can connect with technology influencers and peers to build your network within the ICT community so you can uncover hidden job opportunities.

### Inspiring thought leadership

Catch the latest and greatest ACS thought leadership presentations online. You'll have access to recordings from across Australia, including local branch events, emerging leader presentations and our flagship Reimagination Thought Leaders' Summit with speakers from around the globe. Be inspired and ready for the future with quotable references for your next interview.

### Be ready for the future!

Achieving better outcomes is easy with ACS. By using our online tool mySFIA you can check your skills against the internationally recognised Skills Framework for the Information Age (SFIA). Quickly find the skills that will be relevant to your future and discover pathways to the most exciting jobs. You can compare and develop the skills you need to land your dream job.
