

Which is the highest level of qualification you have achieved?

How many years experience do you have in ICT?

Can you demonstrate in-depth competence in at least four of these specialism at SFIA level 5?

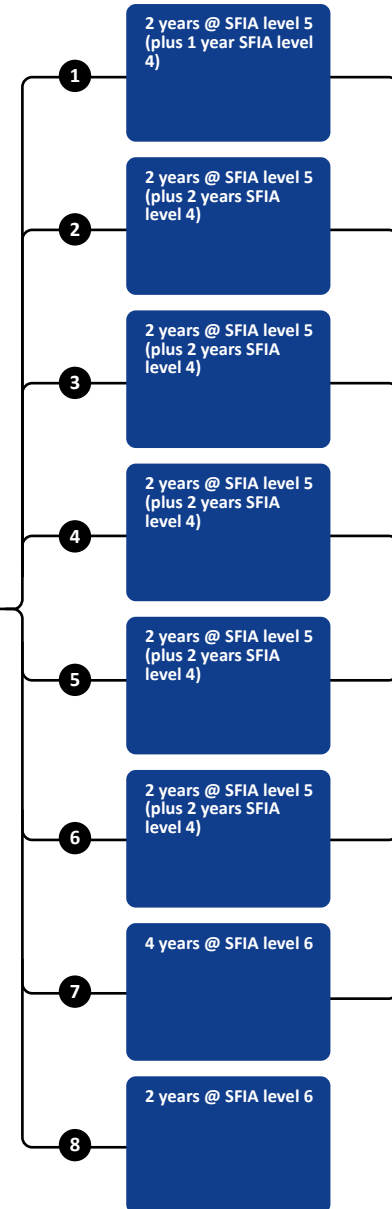

How many years experience do you have in each of the four SFIA specialisms?

## Certified Professional (Cyber Security)

**Minimum Requirements:**  
Must be able to demonstrate in-depth capability in four skills from the following list at level 5 or higher of the Skills Framework for the Information Age (SFIA):

- IT Governance
- Information Management
- Information Security
- Information Assurance
- Business Risk Management
- Penetration Testing
- Security Administration
- Programming/Software Development
- Systems Software
- Testing
- Asset Management

**Pathway Accelerators reducing experience requirements:**

For all pathways with the exception of Senior Manager and Academic:

Completion of an Advanced Masters' degree may reduce the experience requirements by up to 2 years.

Work integrated learning (WIL) – Where the work-based learning extends the study period beyond the normal three years program, the WIL component may be counted towards the experience requirements for ACS professional certification.

Honours – The honours year may be counted towards the experience requirements for ACS professional certification, provided an Honours degree in ICT is awarded in an area relevant to the SFIA level 5 specialism(s) of the applicant.
