

Which is the highest level of qualification you have achieved?

How many years experience do you have in ICT?

Can you demonstrate in-depth competence in at least four of these specialism at SFIA level 5?

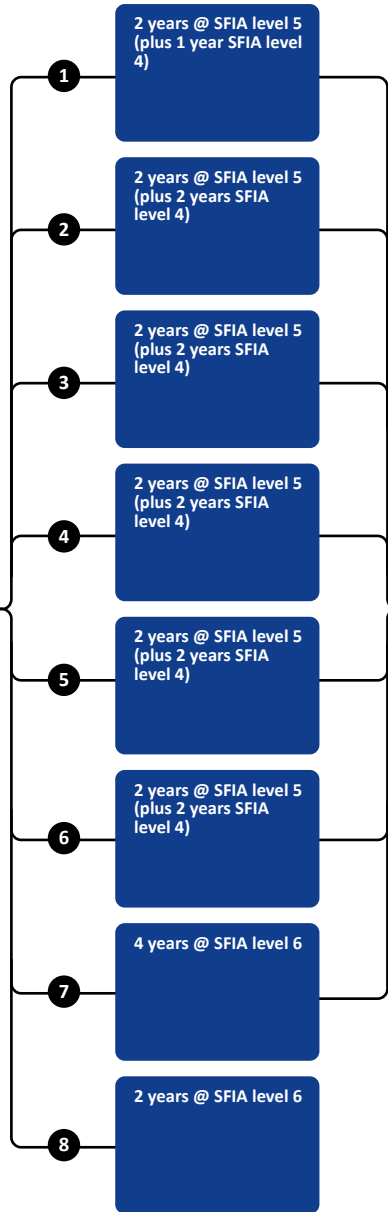

How many years experience do you have in each of the four SFIA specialisms?

Certified Professional (Cyber Security)

Minimum Requirements:
Must be able to demonstrate in-depth capability in four skills from the following list at level 5 or higher of the Skills Framework for the Information Age (SFIA):

- IT Governance
- Information Management
- Information Security
- Information Assurance
- Business Risk Management
- Penetration Testing
- Security Administration
- Programming/Software Development
- Systems Software
- Testing
- Asset Management

Pathway Accelerators reducing experience requirements:
For all pathways with the exception of Senior Manager and Academic: Completion of an Advanced Masters' degree may reduce the experience requirements by up to 2 years.

Work integrated learning (WIL) – Where the work-based learning extends the study period beyond the normal three years program, the WIL component may be counted towards the experience requirements for ACS professional certification.

Honours – The honours year may be counted towards the experience requirements for ACS professional certification, provided an Honours degree in ICT is awarded in an area relevant to the SFIA level 5 specialism(s) of the applicant.
