Certified Technologist (Cyber Security)

Minimum Requirements:
Must be able to demonstrate in-depth capability in four skills from the following list at level 3 or higher of the Skills Framework for the Information Age (SFIA):

- Information Management
- Information Security
- Information Assurance
- Business Risk Management
- System Development Management
- Asset Management
- Change Management
- Security Administration
- Incident Management
- Conformance Review

Pathway Accelerators reducing experience requirements:

Work integrated learning (WIL) – Where the work-based learning extends the study period beyond the normal three years program, the WIL component may be counted towards the experience requirements for ACS professional certification.

Honours - The honours year may be counted towards the experience requirements for ACS professional certification, provided an Honours degree in ICT is awarded in an area relevant to the SFIA level 3 specialism(s) of the applicant.
