Enterprise Architecture
Online Course

This course will be valuable for motivated IT practitioners who wish to undertake postgraduate study.

ACS AUSTRALIAN COMPUTER SOCIETY

Course content

Enterprise Architecture helps you make the most effective use of ICT to support your organisation.

You'll learn the critical components and process involved in the governance of enterprise architectures.

It includes four modules, which explore:

- The major Enterprise Architecture domains and frameworks
- The stages of adopting an enterprise architecture
- Enterprise architecture governance, and how it fits in with other key roles in the organisation
- Understanding the information, the business, and strategies for change.

Learning outcomes

- Understand the stages and principles of implementing Enterprise Architecture.
- Understand the differences between enterprise, solutions and technical architecture.
- Understand the different enterprise architecture domains and layers.
- Recognise the importance of business strategy and the role of the CIO in promoting enterprise architecture.

Who should attend

Motivated IT practitioners who wish to undertake postgraduate study to increase their knowledge and career opportunities.
