

# Information Security

## Online Course

This course will be valuable for motivated IT practitioners who wish to undertake postgraduate study preferably working in the Information Security area, as all assignments are workplace based.

### Course content

Information Security takes you on a journey through governance, management of information, how to develop strategies, responses to incidents, and information risk management. It has been based on the Information Systems Audit and Control Association's curriculum for information security, and developed to help you work towards an information security management credential.

It includes five modules, which explore:

- Governance and information security
- Developing an information security strategy
- Information security risk assessment and management
- Developing an information security development roadmap, common challenges and measuring success
- Incident management and response.

### Learning outcomes

- Determine the current state of information security in your workplace and recommend how current approaches can be improved.
- Apply risk management approaches.
- Review the incident management and response capability within your organisation.

### Who should attend

Students should preferably be working in the Information Security area, as all assignments are workplace based. The subject prepares you for the Certified Information Security Manager Credential Exams, but management experience is also required for certification. You should also be a motivated IT practitioner who wishes to undertake postgraduate study to increase your knowledge and career opportunities.

### SFIA alignment

Follow	Assist	Apply	Enable	<b>Ensure/ Advise</b>	Initiate/ Influence	Set Strategy
--------	--------	-------	--------	-----------------------	---------------------	--------------

This subject is aligned to SFIA Level 5 and the information security skill. It begins to develop the knowledge to achieve Level 6.

### Course duration

The subject is delivered online, and runs for 13 weeks.

### Time commitment

8-10 hours per week

### CPD hours

25 hours (maximum allowable for one activity)

### Subject fees

- Members \$1500 inc gst
- Non-members \$1800 inc gst

### Future study options

Completion of the CPe Program (four Virtual College units, 3 core units from the following – Risk Management: Professionalism and Compliance; Business, Strategy & IT; and New Technology Alignment, plus one elective unit) will reduce the experience requirement of CP certification by 1.5 years.
